01. Complementi Giorno

Day Complements

La collezione complementi giorno nasce dalla ricerca di nuove idee di design, frutto della decennale esperienza nel settore del mobile e delle sapienti mani di esperti vetrai.

All'interno delle proposte dei complementi giorno, il materiale naturale per eccellenza, il legno, si unisce all'artificialità del vetro e degli specchi, creando giochi di colore, forme e materiali, e donando all'ambiente luce e calore allo stesso tempo.

The day accessories collection was born from the research for new design ideas, as result of decades of experience in the furniture sector and the skilled hands of expert glassmakers.

Within the proposals of living accessories, the natural material par excellence, wood, combines with the artificiality of glass and mirrors, creating plays of colour, shapes and materials, and giving the environment light and warmth at the same time.
