RC
HOME&OFFICE
FURNITURE

RC was born thanks to the idea of showing to the foreign markets a highly qualified and efficient company, able to develop any kind of furniture.

RC, for its clients, is no longer the simple manufacturer Made in Italy but an important partner able to interpret all the nuances of the market.

Based on a multi-generational history, today it is mainly innovation that drives and allows us to compete globally in the search for new materials and modern designs. Precious traditional materials are daily rediscovered and reworked by creative designers.

100% - MADE IN ITALY

Each product is the result of a proud, entirely Italian design and production process, where particular emphasis is placed on precise and scrupulous controls at every stage of the production cycle.

Beauty, taste, elegance and attention to detail represent just some of the fundamental elements that characterize the Made in Italy product, a brand that over the years has become synonymous with excellence and absolute reliability. These attributes are of crucial importance for a company constantly called upon to satisfy the needs of a sophisticated and attentive international public.

RC holds ISO 9001:2015 certification, confirming its constant commitment to the highest quality standards.
